Welcome to AMCRC, the finest Rambler Club in the world!

All our Memberships are calendar year; you are an AMCRC member for Calendar Year 2025.

"Calendar Year" means that all of our publications and services from January to December of the calendar year are yours. New AMCRC members get a special Start-Up Packet which includes: a list of club services, Production Information telling how many AMCs were produced during the years 1954-1975, an AMCRC window decal, a membership letter, and other goodies. AMCRC is run by unpaid volunteers (we do this in our spare time in addition to our day jobs); please allow 1-2 weeks for on-line activation and 1-3 weeks for delivery of your start-up package.

Members will receive a Rambler Reader and Ad Release at the end of March, July, September and December 2025.

Don't forget, we are here to help keep your Rambler on the Road (or get it back on the Road). Once you join the club ads in the AMCRC Ad Release are free to members for selling or buying AMC/Rambler cars and parts, and free web ads for those selling AMC vehicles in running condition. We offer an online "Members Only" area with a Club Roster, paint chips, tech info and drawings, past issues of the Ad Release and Tune-Up Charts available for download. For technical assistance you can drop an email to, or call one of our technical experts listed on the inside cover of your Rambler Reader.
